**OGLE MINI**

Design by Form Us With Love

## Flexible spotlight with its own expression

In 2009, design studio Form Us With Love created the luminaire called Ogle. There was a gap in the market for spotlights that could be easily adjusted to direct the light. "We wanted a lamp that looks good by itself but also among a group of lamps".

A new addition was added to the Ogle series, Ogle Mini. A lamp measuring only 90 mm in diameter, cast entirely in aluminum.
