PLUG LAMP

Design by Form Us With Love

A simple idea

Plug Lamp is design by the Stockholm-based design studio Form Us With Love for ateljé Lyktan. And it does exactly what its name suggests. “This was a really simple idea”, says John Löfgren. “We wanted to create a lamp with the added bonus of an electrical socket”.

Whether it is to charge a mobile phone, computer, tablet or camera, we constantly seem to be on the look-out for electric points when we are on the go.
